ATTACHMENT 1: DOE DIRECTIVES APPLICABLE TO THE 222-S LAB

The DOE Directives found in the following listing are the “List of Applicable Directives” and “List B” as those terms are used in paragraph (b) of Section I Clause, Laws, Regulations, and DOE Directives. The Contractor shall follow the established exemption process to obtain relief from requirements of these regulations where applicable.

It is anticipated during the performance of this contract, the conditions for applicability of certain DOE Directive may no longer exist. In any such situation where the Contractor seeks relief from the requirements of such DOE Directives, the Contractor may notify the Contracting Officer in writing explaining the reasons for its belief the DOE Directives no longer apply to contract performance. The Contracting Officer may determine the conditions for applicability of a DOE Directive still exist, and may direct the Contractor to continue compliance with the DOE Directive. Additional, even without such direction by the Contracting Officer, if the conditions for applicability of a DOE Directive once again arise, the DOE Directive will immediately become applicable once again.

List B: Applicable DOE Directives

The following is an all-inclusive list of applicable DOE directives.

*Those directives marked “Supplement,” are DOEL-RL CRDs that are in addition to the DOE-HQ CRDs. The Section B clarification and Section C supplemental requirements apply in addition to the HQ CRDs. Any specific clarifications or requirements do not apply unless otherwise notes.

ATTACHMENT 3 APPLICATIONS, PERMITS, AND NOTICES OF CONSTRUCTION

The following is a list of applications, permits, and Notices of Construction (NOCs) the lab currently complies with:

Liquid Effluents:

- SWDP ST4511, Site-wide Hydrotest, Maintenance, and Construction Discharges, Site-wide Cooling Water and Condensate Discharges and Site-wide Industrial Stormwater Discharges to Engineered Land Disposal Structures
- HNF-SD-W049H-ICD-001, 200 Area Treated Effluent Disposal Facility Interface Control Document

Air Emissions:

- Hanford Site Air Operating Permit, 00-05-006
- NOC, State of Washington Department of Ecology, Letter, July 13, 1992, Approval of the Notice of Construction for the Environmental Hot Cell Expansion
- NOC, State of Washington Department of Health, AIR 08-904, September 8, 2008, *License to Operate the 222-S Laboratory*

Waste Treatment, Storage, Disposal:

The 222-S Laboratory Complex is an interim status Treatment, Storage, and Disposal Facility and does not have a RCRA Permit. An application (DOE/RL-91-27) for a RCRA, Part B, Final Status Treatment, Storage, and Disposal Facility Permit has been submitted to the State of Washington Department of Ecology. Chapter 1 of the permit application contains the Part A, Form 3, Revision 9, Dangerous Waste Permit Application, which must be complied with.

Waste Analysis Plan

A draft Waste Analysis Plan for the Low-Level Burial Grounds is currently being discussed with the Washington State Department of Ecology

ALL OCCUPATIONS LISTED ABOVE RECEIVE THE FOLLOWING BENEFITS:

HEALTH & WELFARE: \$3.59 per hour or \$143.60 per week or \$622.27 per month

VACATION: 2 weeks paid vacation after 1 year of service with a contractor or successor; 3 weeks after 5 years, 4 weeks after 10 years, and 5 weeks after 20 years.

Length of service includes the whole span of continuous service with the present contractor or successor, wherever employed, and with the predecessor contractors in the performance of similar work at the same Federal facility. (Reg. 29 CFR 4.173)

HOLIDAYS: A minimum of ten paid holidays per year, New Year's Day, Martin Luther King Jr's Birthday, Washington's Birthday, Memorial Day, Independence Day, Labor Day, Columbus Day, Veterans' Day, Thanksgiving Day, and Christmas Day. (A contractor may substitute for any of the named holidays another day off with pay in accordance with a plan communicated to the employees involved.) (See 29 CFR 4174)

THE OCCUPATIONS WHICH HAVE NUMBERED FOOTNOTES IN PARENTHESES
RECEIVE THE FOLLOWING:

1) Does not apply to employees employed in a bona fide executive, administrative, or professional capacity as defined and delineated in 29 CFR 541. (See CFR 4.156)

2) AIR TRAFFIC CONTROLLERS AND WEATHER OBSERVERS - NIGHT PAY & SUNDAY PAY: If you

work at night as part of a regular tour of duty, you will earn a night differential and receive an additional 10% of basic pay for any hours worked between 6pm and 6am.

If you are a full-time employed (40 hours a week) and Sunday is part of your regularly scheduled workweek, you are paid at your rate of basic pay plus a Sunday premium of 25% of your basic rate for each hour of Sunday work which is not overtime (i.e. occasional work on Sunday outside the normal tour of duty is considered overtime work).

HAZARDOUS PAY DIFFERENTIAL: An 8 percent differential is applicable to employees employed in a position that represents a high degree of hazard when working with or in close proximity to ordnance, explosives, and incendiary materials. This includes work such as screening, blending, dying, mixing, and pressing of sensitive ordnance, explosives, and pyrotechnic compositions such as lead azide, black powder and photoflash powder. All dry-house activities involving propellants or explosives.

Demilitarization, modification, renovation, demolition, and maintenance operations on sensitive ordnance, explosives and incendiary materials. All operations involving regrading and cleaning of artillery ranges.

A 4 percent differential is applicable to employees employed in a position that represents a low degree of hazard when working with, or in close proximity to ordnance, (or employees possibly adjacent to) explosives and incendiary materials which involves potential injury such as laceration of hands, face, or arms of the employee engaged in the operation, irritation of the skin, minor burns and the like; minimal damage to immediate or adjacent work area or equipment being used. All operations involving, unloading, storage, and hauling of ordnance, explosive, and incendiary ordnance material other than small arms ammunition. These differentials are only applicable to work that has been specifically designated by the agency for ordnance, explosives, and incendiary material differential pay.

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage

determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition, April 2006, unless otherwise indicated. Copies of the Directory are available on the Internet. A links to the Directory may be found on the WHD home page at <http://www.dol.gov/esa/whd/> or through the Wage Determinations On-Line (WDOL) Web site at <http://wdol.gov/>.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE {Standard Form 1444 (SF 1444)}

Conformance Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined. Such conforming process shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees. The conformed classification, wage rate, and/or fringe benefits shall be retroactive to the commencement date of the contract. {See Section 4.6 (C)(vi)} When multiple wage determinations are included in a contract, a separate SF 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate(s).
- 2) After contract award, the contractor prepares a written report listing in order proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, for review. (See section 4.6(b)(2) of Regulations 29 CFR Part 4).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF 1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to insure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

**ATTACHMENT 5: HANFORD SITE SERVICES AND INTERFACE REQUIREMENTS
MATRIX**

Services listed in the *Hanford Site Services and Interface Requirements Matrix* (Matrix) shall be performed in accordance with the Section H Clause entitled, *Hanford Site Services and Interface Requirements Matrix*.

Legend for Matrix – The Legend for the primary Matrix users/providers is as follows:

MSC	Mission Support Contract(or)
PRC	Plateau Remediation Contract(or)
TOC	Tank Operations Contract(or)
WTP	Waste Treatment and Immobilization Plant (Contractor)
RCCC	River Corridor Closure Contract(or)
Other Site Users	Examples include: CSC Hanford Occupational Health Services (CSC), Contractor (Contractor), Del Sol, Johnson Controls, Pacific Northwest National Laboratory (PNNL) [activities located on the Hanford Site], Metal Benders, Tri-City & Olympia Rail, Unitech Services Group, Westech, DOE, etc.

Types of Interfaces –

1. Information (I): knowledge (data, facts, etc) gathered or supplied
2. Physical (P): systems in tangible contact (i.e., 'pipe-to-pipe'), or a physical exchange of product or materials
3. Service (S): provision of work for another Contractor

**ATTACHMENT 6: ADVANCED AGREEMENT – PROCUEURES FOR CHARGING
COSTS TO WORKFORCE RESTRUCTURING**

**Advance Agreement
Procedures for Charging Costs Related to Workforce Restructuring**

Pursuant to FAR 31.109, "Advanced Agreements," Advance Technologies and Laboratories International, Inc. (ATL) and the United States of America, represented by the Department of Energy (the Government) enter into this Advance Agreement (Agreement) on the 15th day of June 2011. This Agreement will be incorporated into Section J of the contract (Contract DE-AC27-10RV15051) when signed.

REFERENCES

- FAR 31.109 – Advance Agreements
- FAR 31.205-6(g)(5) – Abnormal or mass severance pay
- Request for Voluntary Reduction in Force (ATL-2011-040, dated March 3, 2011)
- Hanford Site Workforce Restructuring Plan (as amended May 21, 2002)
- Contract DE-AC27-10RV15051

SCOPE

ATL expects to incur significant severance pay costs of an unusual and non-recurring nature on Contract DE-AC27-10RV15051 due to a Department of Energy approved workforce-restructuring plan that reduces the number of personnel that can charge to the contract.

Severance pay is a payment to workers whose employment is being involuntarily terminated. Severance pay is allowable under Government contracts when it is required by law, employer-employee agreement, established policy that constitutes, in effect, an implied agreement on the contractor's part or circumstances of the particular employment (FAR 31.205-6(g)). ATL's request and the Government's Hanford Site Workforce Restructuring Plan satisfy the allowability criteria of this cost principle.

ATL has not accrued any costs associated with these required severance payments in its indirect pools and books. Abnormal or mass severance pay is of such a conjectural nature that accruals for this purpose are not allowable. However, the Government recognizes its obligation to participate, to the extent of its fair share, in any specific payment. Thus, the Government will consider allowability on a case-by-case basis (FAR 31.205-6(g) (5)).

The sum of severance payments (including applicable taxes) is estimated not to exceed \$700,000.

METHODOLOGY

It is agreed that severance payments along with applicable FICA, FUTA, and SUTA taxes (and any other directly associated costs) shall be charged directly to Contract DE-AC27-10RV15051 in the accounting period when the obligation to make such payments arises. It is further agreed that no indirect costs shall be allocated to these amounts. Finally, it is agreed that due to the abnormal and non-recurring nature of these costs that the costs will not be a factor in developing forecasted or final indirect expense rates (fringe benefits, overhead, or General and Administrative rates). They will be excluded from all indirect cost allocation bases and indirect cost pools.

DURATION

This Agreement is effective from February 8, 2011 through the duration of the base period of the contract (Contract DE-AC27-10RV15051) on January 2, 2012.

A. INTRODUCTION:

This Performance Evaluation and Measurement Plan (PEMP) defines the Office of River Protection's (ORP) approach in evaluating, documenting, and providing performance fee to Advanced Technologies & Laboratories International, Inc. (ATL), in the execution of requirements defined in Contract DE-AC27-10RV15051. This PEMP is for the second year of the contract base period of performance from January 1, 2011, through December 31, 2011.

1. PEMP Objectives

- a. Provide ORP with a mechanism to achieve its highest priority objectives;
- b. Provide incentive to ATL to accomplish ORP's management and program objectives through the establishment of critical performance objectives and measures;
- c. Reward ATL with fee commensurate with the achievement of the specific ORP performance requirements;
- d. Create an administratively efficient process to assess ATL performance;
- e. Provide a fair and reasonable basis for determining the amount of fee earned; and
- f. Create a process that ensures ATL work efforts are executed in a manner that provides high value and high quality deliverables to ORP.

2. Definitions

- a. Award Fee. The subjective fee component of Performance Fee.
- b. Expected Performance Level. Meets agreed upon requirements and performance objectives.

DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051

- c. Fee Determination Official. The final authority in determination of fee awarded to ATL.
- d. Multi-year Incentive. An incentive designed to establish performance objectives and measures beyond one fiscal year or evaluation period.
- e. Office of River Protection (ORP). ORP is a Field Office under the Environmental Management headquarters organization.
- f. Performance Evaluation Board. For the purpose of this PEMP, designated ORP managers are chartered with recommending ATL earned fee to the Fee Determination Official (FDO).
- g. Performance Evaluation and Measurement Plan. A plan that defines an approach in evaluating, documenting, and providing performance fee against specified Performance Based Incentives and Award Fee Incentives.
- h. Performance Evaluation Period. The specific period for which the Performance Evaluation Board evaluates contractor's overall performance: January 1 through December 31.
- i. Performance Fee. That portion of the total available fee which is tied exclusively to the contractor's performance of the contract. The performance fee amount will consist of an incentive fee component for objective performance requirements and an award fee component for subjective performance requirements, or both.
- j. Performance Incentive. A performance incentive represents a reward or consequences that may be employed to motivate a contractor to achieve baseline or higher levels of performance of a requirement. In most instances, the incentive represents an amount of fee tied to the accomplishment of a performance objective.
- k. Performance Measure. The quantitative method for characterizing performance.
- l. Performance Monitor. Designated by the Performance Evaluation Board as responsible individuals monitoring and evaluating the contractor's performance.
- m. Performance Objective. A statement of desired results from an organization or activity.
- n. Provisional Payment of Fee. Any payments paid on a provisional basis may be reclaimed.
- o. Special Emphasis Area. An area that is extremely important to ORP.

3. **Fee Concept**

Performance-based management contracting principles emphasize results-oriented work statements, and performance objectives and measures to incentivize contractors to achieve excellent performance. ORP implements performance-based management contracting principles through processes associated with *Budget Formulation, Budget Execution, and Performance Evaluation*.

ATL is responsible for performing the Analytical Services function of receiving, handling, analyzing, storing and report on samples obtained from Hanford contractors. These functions are performed at the 222-S Laboratory complex located in the 200 West Area of Hanford. These services support cleanup and closure goals of all Hanford projects. This work is performed using facilities and infrastructure which are owned by DOE and maintained by DOE's Tank Operations Contractor (TOC). Because of the nature of this work, ORP utilizes performance fee to incentivize and reward ATL for performance. Performance fee consists of two components: an incentive fee component which provides management focus and emphasis on ORP's critical few program objectives and an award fee component which provides management focus on all other aspects of ATL's performance such as overall program, current importance to the overall performance of the contract, their potential for being problem areas, and/or current degree of concern for performance.

a. **Performance Based Incentive (PBI)**

The PBI performance measures and fee measures are delineated in Attachment 1 of this PEMP. Emphasis will be placed on development of objective incentives based on definition of the desired outcome (the "what") and expect the contractor to compliantly and safely determine "how" the work is performed to achieve the desired outcome within the established funding constraints. These incentives are identified as PBIs and typically carry more performance risk and higher fee earning opportunities.

b. **Award Fee Special Emphasis Area (SEA) Incentives**

The SEA performance objectives and measures are delineated in Attachment 1 of the PEMP. In certain instances, the contractor must provide support and/or deliverables that are required to accomplish the project objectives but are not objectively measurable in all cases. These efforts are therefore measured subjectively under incentives identified as SEAs and typically carry reduced performance risk and moderate fee earning opportunities and the FDO may use discretionary factors in determining fee. Consideration will also be given to complete and accurate technical information/products delivered in mutually agreed time frames that meet all applicable codes, standards, rules, regulations and orders.

- B. REFERENCES.** U.S. Department of Energy Office of River Protection Contract with ATL for Analytical Services; Contract DE-AC27-10RV15051.
- C. ROLES AND RESPONSIBILITIES** The effectiveness of this PEMP requires the establishment of a close working relationship between ORP, and ATL because all entities are responsible for successful implementation of the plan and successful completion of ORP's significant management and program objectives. The roles and responsibilities of the key personnel are as follows:

1. Fee Determination Official: Manager, Office of River Protection

The FDO will: 1) appoint the PEB Chair; 2) review the recommendation of the PEB, consider all pertinent data, and determine the amount of Award Fee earned during each evaluation period; 3) notify the Contractor via the CO of performance strengths, areas for improvement, and future expectations; 4) approve the PEMP and any significant changes thereto; and 5) authorize the Contracting Officer to make the Award Fee Payment.

2. LAS&T Contracting Officer:

The CO will: 1) serve as a voting member of the PEB; 2) issue the PEMP on an annual basis in accordance with Section B.4 Final Fee Determination of the Contract; 3) ensure that the Award Fee and Contract Incentives process is managed consistent with applicable acquisition regulations, 4) ensure that the Award Fee process meets the overall LAS&T business objectives, and 5) issue the award fee amount earned determination as authorized by the FDO in accordance with B.4 Final Fee Determination

3. Performance Evaluation Board:

- Tank Farms Project Assistant Manager, Chair
- LAS&T Contracting Officer
- LAS&T Performance Evaluation Program Manager

The PEB reviews the PEM evaluations of Contractor performance, considers the Contractor's self-assessment if submitted, considers all information from pertinent sources, prepares draft and final performance reports, and arrives at an earned award fee recommendation to be presented to the FDO. The PEB may also recommend changes to the PEMP.

4. Performance Evaluation Board Chair:

The PEB Chair will be identified and appointed by the Fee Determining Official (FDO). The Chair may assign or reassign Performance Evaluation Monitors at any time without advance notice to the Contractor. The Chair will: 1) review the

DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051

performance monitors' evaluations and consider the Contractor's self-assessment; 2) analyze the Contractor's performance against the criteria set forth in the PEMP; 3) provide periodic interim performance feedback to the Contractor via the CO; 4) provide a recommendation on the Award Fee scoring and the amount earned by the Contractor; and 5) recommend any changes to the PEMP.

5. LAS&T Performance Evaluation Program Manager:

The Performance Evaluation Program Manager is responsible for coordinating the administrative actions required by the PEMs, the PEB and the FDO, including: 1) receipt, processing, and distribution of evaluation reports from all required sources; 2) scheduling and assisting with internal evaluation milestones, such as briefings; and 3) accomplishing other actions required to ensure the smooth operation of the award fee process.

6. Performance Evaluation Monitors:

PEMs may be drawn as needed from the following positions or others as deemed necessary by the PEB Chair:

- Assistant Manager, Environment, Safety, Health, and Quality
- Director, Acquisition Management Division
- Director, Tank Farm Programs and Projects
- LAS&T Contracting Officer/Contract Specialist
- ORP Organizational Property Management Officer
- Tank Farms Project Controls Officer
- LAS&T Program Manager

The PEMs will: 1) monitor, evaluate, and assess Contractor performance in their assigned areas; 2) periodically prepare a Contractor Performance Monitor Report (CPMR) for the PEB. 3) recommend any needed changes to the PEMP for consideration by the PEB and FDO; and 4) maintain a performance dialogue with ATL Performance Measure owners throughout the evaluation period.

D. METHOD FOR DETERMINING PERFORMANCE FEE

1. Communication with ATL during the Evaluation Period

One important consideration for evaluation will be discussions between the Performance Monitor (PM) and their ATL counterpart. It is a management expectation that PMs meet with their ATL counterpart at least monthly to review, discuss, and provide interface on ATL's performance against the performance-based and award fee incentives and overall contract performance.

Regular communication with ATL at the PM level will contribute to the success of the fee process. PM should discuss performance which may not currently meet

DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051

performance objectives and measures, and thereby keep ATL informed as to achievements and deficiencies that may appear in the final evaluation for the period. ORP established an OPR Monthly Project Review that provides interface between ORP and ATL.

2. ATL Self Assessment

ATL shall provide the ORP Contracting Officer and the ORP LAS&T Performance Evaluation Program Manager with an electronic copy of the ATL self-assessment within ten (10) working days upon completion of the performance evaluation period.

ATL shall identify issues potentially affecting the completion of individual PBIs and SEAs and the overall success of the program, and actions taken or recommended to resolve those issues. ATL's self-assessment shall propose and justify the amount of performance based incentive and award fee earned, and include a discussion of fee reductions warranted by any failure to meet performance expectation. In the event the contractor self-discloses a situation that falls within the support of a special emphasis area, and appropriately self-corrects the situation in a timely manner, fee reduction may be waived by the CO. The timeliness and effectiveness of the contractor's corrective action may also mitigate fee reductions for deficiencies identified by ORP or other regulatory entities.

3. ORP Assessment

ORP Performance Monitors shall prepare and submit to the ORP LAS&T Performance Evaluation Program Manager, an independent assessment of ATL's performance within 20 calendar days after the end of an award fee evaluation period. The ORP Performance Monitor shall consider ATL's input with respect to completing the PBI and SEA performance criteria and with respect to the quality. Where significant disagreement exists between ATL's self assessment and ORP's assessment, the responsible ORP Performance Monitor shall raise such disagreements to the PEB for resolution. ATL may be requested to attend a Board meeting to assure their view is understood.

The ORP LAS&T Performance Evaluation Program Manager will consolidate ORP Performance Monitor Evaluation Reports and submit a written evaluation report to the PEB members for approval.

4. Performance Evaluation Process

- (a) Within ten (10) working days upon completion of the end of an award evaluation period, ATL shall provide the ORP Contracting Officer and the ORP LAS&T Performance Evaluation Program Manager with an electronic copy of the ATL self-assessment. The self-assessment provided shall provide an assessment of their performance in the completion of a PBI and award fee performance objectives and measures. The ORP LAS&T Performance

DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051

Evaluation Program Manager is responsible for distribution of the ATL self-assessment to ORP Performance Monitors.

- (b) Within twenty (20) calendar days upon the end of an award fee evaluation period, ORP Performance Monitors will prepare and submit an independent assessment of ATL's performance, with respect to quality and schedule, against the performance objectives and measures to the ORP LAS&T Performance Evaluation Program Manager for consolidation. The ORP Performance Monitor shall consider ATL's input with respect to payments of fee. Where significant disagreement exists between ATL's self assessment and ORP's assessment, the responsible Performance Monitor shall raise such disagreements to the PEB for resolution. ATL may be requested to attend a Board meeting to assure their view is understood.

The ORP assessment must be submitted on the Performance Monitor Evaluation Report form, Attachment 2 of the Plan, and will only be accepted by the ORP Procurement Division upon the approval of the ORP Performance Monitor.

- (c) Within approximately thirty (30) calendar days after the end of an award fee evaluation period, the ORP LAS&T Performance Evaluation Program Manager will consolidate Performance Monitor Evaluation Reports and submit to the PEB members for review.
- (d) Within approximately sixty (60) calendar days after the end of an award fee evaluation period, the PEB will review, validate, and prepare an evaluation report and submit a fee recommendation to the FDO.
- (e) Within seventy (70) calendar days after the end of an award fee evaluation period or 60 calendar days after receipt of contractor's self-assessment for award fee (whichever is later), the FDO will make a determination of the fee earned.

5. Evaluation and Discussion Documentation

Where meetings or discussions are held by the PM (with ATL, HQ, or others) that significantly impact award fee evaluations, it is necessary that appropriate documentation be created. This documentation can be in the form of signed and dated notes, minutes, or correspondence. Copies of the PM documentation should be maintained by the PM in support of the Performance Evaluation Report.

Rationale for fee payments will be documented by the Performance Evaluation Board and the fee determination official. The final PEB Fee Recommendation and FDO Fee Determination reports along with supporting rationale will be maintained by the ORP Acquisition Management Division organization in the official "contract file".

DOE OFFICE OF RIVER PROTECTION PERFORMANCE EVALUATION AND MEASUREMENT PLAN
ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051

E. PEB INVOLVEMENT IN FINAL EVALUATIONS

The PEB is responsible for reviewing the Performance Evaluation Reports and developing a Fee Recommendation Report to the FDO. The Chair, PEB, will provide updates and feedback to the FDO prior to receiving the PEB's final signed fee recommendation report.

As directed by the FDO, and especially if significant deficiencies exist, the Fee Recommendation Report is discussed with ATL General Manager by the PEB, individual board members, and/or the FDO. Because the Fee Recommendation Report is pre-decisional, its contents will not be formally provided to ATL.

F. FDO RESPONSIBILITIES IN FINAL EVALUATIONS

The FDO may meet with ATL, as appropriate, during the process of developing his/her evaluation position. Based on the FDO's personal knowledge, the information contained in ATL's self-assessment, the PEB Fee Recommendation Report, and/or other information relating to ATL's performance of the contract requirements, the FDO develops a determination on the evaluation and award fee.

G. METHOD FOR CHANGING PLAN COVERAGE

Proposed changes to the PEMP may be initiated by ORP or ATL. Proposed changes to the PEMP may be initiated on the official PEMP Change Form (Attachment 3). The respective Performance Monitor will review and concur on proposed changes prior to any changes being made to the PEMP.

Performance Objective	ATL will maintain holding time performance at greater than or equal to 85% of all samples received during this evaluation period.	
Performance Measure	This PBI will be measured by dividing the number of holding times met by the total number of samples received by the laboratory during this evaluation period.	
Performance Target	Total available fee will be paid as follows: Holding Time Met % $\geq 95\%$ = 100% of Fee Holding Time Met % $\geq 90\% < 95\%$ = 90% of Fee Holding Time Met % $\geq 85\% < 90\%$ = 80% of Fee Holding Time Met % $< 85\%$ = 0% of Fee

ADVANCED TECHNOLOGIES & LABORATORIES INTERNATIONAL, INC. –CONTRACT DE-AC27-10RV15051**AWARD FEE SPECIAL EMPHASIS AREAS**

DOE will evaluate and measure performance in each of the Special Emphasis Areas 1 through 4, using the Performance Targets for each Special Emphasis Area. The Performance Targets are considered necessary to achieve the Performance Objective stated in the Special Emphasis Area. The evaluation will assign a Numerical Rating of 0 to 100, and corresponding Adjectival Rating, to each Special Emphasis Area. The Percent of Available Fee Earned awarded to that Special Emphasis Area will match the Numerical Rating (e.g., a Numerical Rating of 71 is awarded 71% for that Element). The Numerical and Adjectival Ratings will be based upon DOE's evaluation of the extent to which Contractor performance on that Special Emphasis Area favorably contributed toward achieving the desired outcome. See table below for definitions of adjectival ratings.

Each Special Emphasis Area has indicators and guidelines that are important performance considerations; however, DOE may consider any pertinent performance information related to that Special Emphasis Area.

Award Fee Special Emphasis Area – Ratings and Definitions Chart

Assigned Numerical Rating	Adjectival Rating (corresponding to Numerical Rating)	Definition	Percentage of Award Fee Earned*
91 to 100	Excellent	Contractor has exceeded almost all of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor's work is highly professional. Contractor is proactive and takes an aggressive approach in identifying problems and their resolution with a substantial emphasis on performing quality work in a safe manner within cost/schedule objectives. No significant re-work.	91% to 100%
76 to 90	Very Good	Contractor has exceeded many of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor is usually proactive and demonstrates an aggressive approach in identifying problems and their resolution with an emphasis on performing quality work in a safe manner within cost/schedule objectives. Problems are usually self-identified and resolution is self-initiated. Some limited, low-impact rework within normal expectations.	76% to 90%

51 to 75	Good	Contractor has exceeded some of the significant award-fee criteria and has met overall cost, schedule, and technical performance requirements of the contract as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor is able to solve basic problems with adequate emphasis on performing quality work in a safe manner within cost/schedule objectives. The rating within this range will be determined by level of necessary Government involvement in problem resolution and extent to which the performance problem is self-identified vs. Government-identified. Some re-work required that unfavorably impacted cost and/or schedule.	51% to 75%
≤ 50	Satisfactory	Contractor has met overall cost, schedule, and technical performance requirements of the contract as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor has some difficulty solving basic problems, and cost, schedule, safety, and technical performance needs improvement to avoid further performance risk to the project. Government involvement in problem resolution is necessary. Excessive rework required that unfavorably impacted cost and/or schedule.	≤ 50%
0	Unsatisfactory	Contractor has failed to meet overall cost, schedule, and technical performance requirements of the contract as defined and measured against the criteria in the award-fee plan for the award-fee evaluation period. Contractor does not demonstrate an emphasis on performing quality work in a safe manner within cost/schedule objectives. Contractor is unable to solve problems and Government involvement in problem resolution is necessary. Excessive rework required that had significant unfavorable impact on cost and/or schedule.	0%

* Percent Fee Earned corresponds with Numerical Rating (e.g., a Numerical Rating of 71 percent earns 71 percent of available fee for that Performance Measure).

SEA - 1	Readiness to Serve	Due Date: 12/31/2011
		Value (%): 10%
		Value (\$):\$103,258
Performance Objective	ATL will demonstrate responsiveness to current and emerging customer needs by providing Readiness to Serve.	
Performance Target	ATL's performance will measured utilizing at the minimum the following award fee evaluation criteria: <ul style="list-style-type: none"> • Maintaining a workforce that is adequately trained and appropriately sized to existing budget direction • Maintaining existing analytical methods and establishing ten (10) new analytical methods in response to customer needs • Ensuring that existing and functional Government-provided instruments are properly calibrated and ready to perform analytical work scope 	

SEA - 2	Analytical Performance and Data Quality	Due Date: 12/31/2011
		Value (%): 5%
		Value (\$): \$51,628
Performance Objective	ATL will be evaluated on the overall analytical performance and data quality of deliverables utilizing the existing quality assurance and quality control plan.	
Performance Target	ATL's performance will measured utilizing at the minimum the following award fee evaluation criteria: <ul style="list-style-type: none"> • Reducing or eliminating existing Vadose Zone project backlog <u>as of January 1, 2011</u> • Quality of final reporting data; measured by issues identified through review comment records, client complaints, requests for revised or corrected reports, and performance evaluation samples • Document the number and categorize the seriousness of data quality issues associated with analytical data and resolve in a timely manner which meets clients needs • Maintain acceptable sample archival and sample preservation <u>as required</u>

Discussion:

Discussion summaries should describe the method used to evaluate timeliness, quality and completion of performance objectives/measures; clarifying remarks regarding the timeliness and sufficiency of the products/activities against defined performance objectives/measures; identification of significant deviations; rationale for recommended fee payment/rating (if necessary, provide computations); and mitigating factors, if any, that were considered in determining the amount of fee.

Areas to consider:

1. Contractor monthly performance indicator results including positive or negative trends.
2. Management reviews and reports including the new monthly reviews.
3. Contractor's self-assessment report.
4. DOE independent and program assessments.
5. Issues and corrective action of issues
